Contributions to Mineralogy and Petrology

Founded in 1947 by O.H. Erdmannsdörffer. Volume 1 (1949) edited by O.H. Erdmannsdörffer as "Heidelberger Beiträge zur Mineralogie und Petrographie". Continued from Volume 6 (1957) as "Beiträge zur Mineralogie und Petrographie", edited by C.W. Correns. From Volume 12 (1966) to Volume 40 (1973) published as "Contributions to Mineralogy and Petrology/Beiträge zur Mineralogie und Petrologie", edited by C.W. Correns. Beginning with Volume 41 (1973) "Contributions to Mineralogy and Petrology". As of Volume 43 (1974) edited by C.W. Correns and I.S.E. Carmichael. As of Volume 74 (1980) edited by I.S.E. Carmichael and J. Hoefs.

Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), as well as all translation rights. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

The use of general descriptive names, trade names, trademarks, etc., in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.

While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special regulations for photocopies in the USA: Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of U.S. Copyright Law, provided a fee is paid. This fee is US $0.20 per page, or a minimum of US $1.00 if an article contains fewer than five pages. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0010-7999, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

Milodowski, A.E., → Savage, D., et al. 391–405

Mokhtari, A., → Wagner, C., et al. 186–191

Munoz, J.L., → Selverstone, J. 426–440

Newton, R.C., → Hansen, E.C., et al. 225–244

O'Leary, M.J., Sack, R.O.: Fe–Zn exchange reaction between tetrahedrite and sphalerite in natural environments 415–425

Olsen, S.N.: The composition and role of the fluid in migmatites: a fluid inclusion study of the Front Range rocks 104–120

Otten, M.T., Buseck, P.R.: TEM study of the transformation of augite to sodic pyroxene in eclogitized ferrogabbro 529–538

Patchett, P.J., Ruiz, J.: Nd isotopic ages of crust formation and metamorphism in the Precambrian of eastern and southern Mexico 523–528

Pedersen, A.K., Rønsbo, J.G.: Oxygen deficient Ti oxides (natural magnéli phases) from mudstone xenoliths with native iron from Disko, central West Greenland 35–46

Peucat, J.-J., → Deniel, C., et al. 78–92

Pin, C., Carme, F.: A Sm–Nd isotopic study of 500 Ma old oceanic crust in the Variscan belt of Western Europe: the Chamrousse ophiolite complex, Western Alps (France) 406–413

Prame, W.K.B.N., → Hansen, E.C., et al. 225–244

Reid, J.B. Jr., Hamilton, M.A.: Origin of Sierra Nevadan granite: evidence from small scale composite dikes 441–454

Reny, G., → Grieve, R.A.F., et al. 56–62

Rønsbo, J.G., → Pedersen, A.K. 35–46
Ruiz, J., → Patchett, P.J. 523–528
Ryabenko, V.A., → Grieve, R.A.F., et al. 56–62
Sack, R.O., Walker, D., Carmichael, I.S.E.: Experimental petrology of alkalic lavas: constraints on cotectics of multiple saturation in natural basic liquids 1–23
Sack, R.O., → O'Leary, M.J. 415–425
Saleeby, J.B., → Shaw, H.F., et al. 281–290
Santosh, M.: Cordierite gneisses of southern Kerala, India: petrology, fluid inclusions and implications for crustal uplift history 343–356
Savage, D., Cave, M.R., Milodowski, A.E., George, I.: Hydrothermal alteration of granite by meteoric fluid: an example from the Carnmenellis Granite, United Kingdom 391–405
Schreyer, W., → Massonne, H.-J. 212–224
Selverstone, J., Munoz, J.L.: Fluid heterogeneities and hornblende stability in interlayered graphitic and nongraphitic schists (Tauern Window, Eastern Alps) 426–440
Shaw, H.F., Chen, J.H., Saleeby, J.B., Wasserburg, G.J.: Nd–Sr–Pb systematics and age of the Kings River ophiolite California: implications for depleted mantle evolution 281–290
Spera, F.J., → Crisp, J.A. 503–518
Steltenpohl, M.G., Bartley, J.M.: Thermobarometric profile through the Caledonian nappe stack of Western Ofoten, North Norway 93–103
Stille, P., Buletti, M.: Nd–Sr Isotopic characteristics of the Lugano volcanic rocks and constraints on the continental crust formation in the South Alpine domain (N-Italy-Switzerland) 140–150
Sutcliffe, R.H.: Petrology of Middle Proterozoic diabases and picrites from Lake Nipigon, Canada 201–211
Thirlwall, M.F., → Dickin, A.P., et al. 455–464
Thompson, R.N., → Dickin, A.P., et al. 455–464
Tormey, D.R., Grove, T.L., Bryan, W.B.: Experimental petrology of normal MORB near the Kane Fracture Zone: 22°–25° N, mid-Atlantic ridge 121–139
Valley, J.W., → Lamb, W.M., et al. 485–495
Vance, J.A., → Evans, B.W. 178–185
Velde, D., → Wagner, C., et al. 186–191
Vidal, P., → Deniel, C., et al. 78–92
Wagner, C., Velde, D., Mokhtari, A.: Sector-zoned phlogopites in igneous rocks 186–191
Walker, D., → Hekinian, R. 265–280
Walker, D., → Sack, R.O., et al. 1–23
Wasserburg, G.J., → Shaw, H.F., et al. 281–290
